### Special to the Ladies.

We call your attention to our superior tonic, "**Iron Bitters**." This valuable preparation is not a patent medicine humbug, but a remedy of value. The formula from which it is made is the result of long study and numerous experiments of one of the best chemists in the country and is the only Iron Preparation that all persons can take with impunity; as nearly all medicines containing Iron produce a heavy, full feeling in the head, giving headache, etc. **Iron Bitters** are warranted not to do this, nor will they in any way color the teeth, when all other Iron remedies will. If you feel weak, have Dyspepsia, Indigestion, Languor, Sleeplessness, or any complaint dependent upon lack of proper physical function in any portion of the body, we advise you to try this medicine. It enriches the blood; builds up the system, and gives new tone to both muscles and nerves. Last, but not least, while having more really medicinal value than any known tonic, the composition is so perfect that there is no alcoholic effect or result from its use. Ladies nursing will find it invaluable.
